

checkEEPROMVersionNumber

setupEEPROM

setup

```
graph RL; setup[setup] --> setupEEPROM[setupEEPROM]; setupEEPROM --> checkEEPROMVersionNumber[checkEEPROMVersionNumber];
```

The diagram illustrates a three-step process for EEPROM setup. It begins with a 'setup' step, followed by 'setupEEPROM', and concludes with 'checkEEPROMVersionNumber'. Each step is contained within a rectangular box. The 'setup' and 'setupEEPROM' boxes are white with black borders, while the 'checkEEPROMVersionNumber' box is shaded gray with a black border. Blue arrows indicate the flow from right to left, connecting 'setup' to 'setupEEPROM' and 'setupEEPROM' to 'checkEEPROMVersionNumber'.
